

Transforming the enterprise together with Colt on PlatformDIGITAL®

Digital Realty and Colt have partnered to help enterprises transform and future-proof their business by adopting agile, hyperconnected, high-performance hybrid architectures.

Why Colt and Digital Realty?

With Colt's world class global network capabilities and Digital Realty's PlatformDIGITAL®, we connect enterprises to data communities, public and private clouds, data and users, to deliver the enhanced performance, to transform their business, wherever they are.

The shift in the amount of data being generated, consumed, stored and used is causing enterprises to move away from traditional IT towards distributed architectures. They now need the ability to connect easily to business, technology partners and service providers, while also ensuring the best possible connectivity between their users and their data. The explosion of cloud-based services means they are connecting to multiple clouds for varying workloads alongside all of this, they need to deliver optimum performance regardless of location, application, network, or service, with agile infrastructure that can scale and adapt to their needs.

Digital Realty and Colt have partnered to help enterprises optimise their IT-architecture. Colt's world-class global network and Digital Realty's PlatformDIGITAL® work together to help enterprises accelerate their cloud journey, empowering them to become truly global businesses, transform user experiences and prepare them for the next wave of innovation.

Together, Digital Realty and Colt help enterprises to build an agile platform for their future business; one that can expand and grow in line with their needs to secure their infrastructure for today, tomorrow and beyond.

Our combined value:

Accelerating the Cloud Journey

As enterprises move more workloads and applications to the cloud, they are likely to have to maintain and pay for data centers that they no longer need.

Together we help them consolidate their data center footprint, optimise costs, and design agile hybrid architectures to overcome storage and processing limitations.

Empowering Global Business

As the use of data skyrockets, enterprises must build the capability to process it closer to where it is generated and used. We help enterprises extend their reach by connecting them directly to hybrid and multi-cloud environments in data centers across the globe via ServiceFabric™ and Colt's high-density network.

Transforming User Experience

More services and more infrastructure can mean more complexity. We keep enterprise networks secure, reliable, and fast for every user, in every location by delivering direct, high-speed cloud connections, combined with intelligent fault detection and resolution, to provide an uninterrupted, resilient service.

Enabling a Data Driven Enterprise

Transformation isn't just about changing infrastructure – it's about making sure it remains flexible. We help enterprises to stay agile and quickly deploy new capabilities and dedicated data connections to prime the network for high-performance computing such as AI or IoT.

Digital Realty

Digital Realty supports the world's leading enterprises and service providers by delivering the full spectrum of data center, colocation and interconnection solutions.

PlatformDIGITAL®, the company's global data center platform, provides customers a trusted foundation and proven Pervasive Datacenter Architecture PDx™ solution methodology for scaling digital business and efficiently managing data gravity challenges. ServiceFabric™, is the service orchestration platform that seamlessly interconnects workflow participants, applications, clouds and ecosystems to support the exploding volume of data driven by AI and HPC deployments

Colt

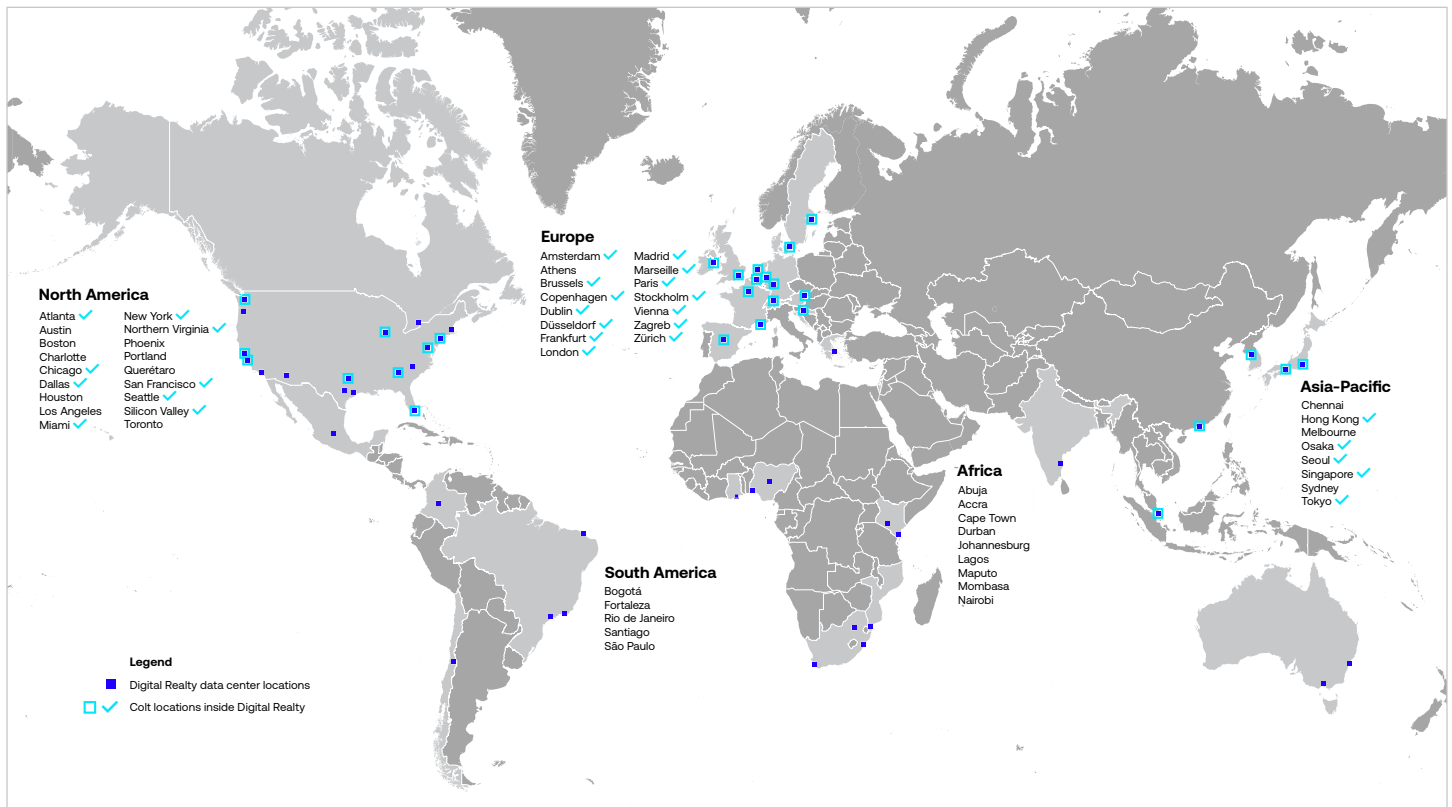

Colt Technology Services (Colt) is a global digital infrastructure company which creates extraordinary connections to help businesses succeed. Powered by amazing people and like-minded partners, Colt is driven by its purpose: to put the power of the digital universe in the hands of its customers, wherever, whenever and however they choose.

Since 1992, Colt has set itself apart through its deep commitment to its customers, growing from its heritage in the City of London to a global business spanning 40+ countries, with over 6,000 employees and more than 80 offices around the world. Colt's customers benefit from expansive digital infrastructure connecting 32,000 buildings across 230 cities, more than 50 Metropolitan Area Networks and 230 Points of Presence across Europe, Asia, the Middle East, Africa and North America's largest business hubs.

Privately owned, Colt is one of the most financially sound companies in the sector. Obsessed with delivering industry-leading customer experience, Colt is guided by its dedication to customer innovation, by its values and its responsibility to its customers, partners, people and the planet.
